

# Kids Can't Wait

**for the School Day to End and Come to  
Our After-School Program!**

**When the school day is done, kids come running to our after-school program,** so they can join their friends for the fun and games. You'll be happy and secure that your child is here because few places are safer than a martial arts school—and he or she will benefit from age-appropriate exercise, self-defense training and valuable character lessons. This is the after-school program with maximum value and the activities to improve confidence and discipline and sharpen concentration for better schoolwork. **CALL TODAY TO REGISTER!**
